Dear Paul,

The docs I wrote you about last week I now have and can provide you copies if Jim hasn't ordered them. You may not see the value in some I do. They are

CD1347- 8-15, inc.
44-8
119-24 (121 withheld)
CD20- 7-8, 24-5

I ordered CD20, 4, andxdidn't get it.
CD20, 6 is withheld.

I will be adding some of this to COUP D'ETAT. Sibce my return I've added a chapter I'm astounded I forgot and read about half of it. I am writing Rowley and will send copy.

Will discuss Arch with Hal, as you suggest, take him there, etc. He indicates he'll not come until next weekend at earliest. I hope he'll stay for a while, even if it means the end of our buck bathing, the three-times-a-day little pre-meal and pre-bed break we take. I did hear from him end last week. Doing Gary Shhoener can be here same time. If I didn't write, I've heard from him. He has lost sight left eye.

No other news from N.O.

Sincerely,
